## Effortless Control, Total Security – All in the CLOUD

AxiomCLOUD provides a comprehensive access management and administration system, built on the proven strength and reliability of RBH solutions, including Integra32 and AxiomXa. It utilizes remote management and virtual server power to offer a secure, scalable, and efficient solution.

## Readers & Credentials

RBH delivers award-winning mobile credential technology with the blueLINE series of smart readers. In addition, we offer a full line of proximity, keypad, vandal-resistant, and biometric technologies.

## Enterprise Security Management System

With a robust architecture, customizable interface, and in-house design, AxiomXa offers a scalable and cost-effective solution for systems of any size. It seamlessly integrates access control, video monitoring, and building management automation, powered by Microsoft SQL Server and MS .NET for unparalleled security.

## Universal Controllers

Engineered to perform reliably in the most demanding environments worldwide. Our solutions support a wide range of identification devices, including proximity, fingerprint, facial, and iris recognition, along with a variety of other advanced technologies available on the market today.

SECURITY & FIRE EXCELLENCE AWARDS

ULC-S319 | UL-294 | UL-294-B | UL-1076

RBH designs and manufactures award-winning hardware and software for small businesses and enterprises.

Since 1995, RBH Access Technologies has been a global leader in the design and manufacture of state-of-the-art access control and security management systems. Available in over 100 countries and 15 languages, our solutions are engineered for reliability, scalability, and innovation.

## Integra 32™

### The Complete Security Management Solution for Small to Medium Businesses

Integra32 provides basic integrated access control functionality to meet the common needs of most small and medium-sized businesses. There is no limit to system expansion with a built-in hardware upgrade path to Axiom systems.

### Your Next-Level Video Management Solution

RBHView: This video management software integrates with IP cameras to optimize building efficiency and security. Its intuitive design maximizes efficiency and return on investment. Deployable as a standalone solution or integrated with RBH Access Control Software, it is an ideal upgrade for IP-based systems.
