**RBH ACCESS**

- Pre-registration and Quick look up
- Quick visitor check in and check out
- Issue pre-configured access cards
- Take pictures of the visitors
- Print visitor's photo ID badge
- Live tracking of visitor's card activity
- Define custom information fields
- Many additional features...

# Complete reporting

While visitors are on the premises or long gone there is a complete audit trail of their visit. Many easy to use reports are available:

- Visitors log, searchable by visited department or employee, visitors name or card number, etc.
- Visitors currently on premises report
- Visitor's access at specific readers report
- Export reports into multiple formats

# Visitor's asset tracking

Security or industrial espionage policy at many facilities prohibits visitors from bringing certain items onto the premises. Weapons, cameras and mobile phones are just a few examples.
AxiomXa simplifies asset detention procedure by linking items to visitors while providing them with a peace of mind by taking pictures of the items and issuing return receipts.

- Take picture of the assets
- Record descriptions and print receipts
- Return reminder at checkout
